Selling 200+ Angus Bulls
and 60+ B3R Charolais Bulls!

Because the cattle work... in our pastures, your pastures, in the feed yard and on the rail.

Calving ease and we still maintain muscle and performance –

Our Angus bulls have generations of proven calving ease bred into them. Along the way, we have maintained muscle, bone and lower cost performance.

Gain on grass –

Are you tired of “feed bucket cattle,” the kind you have to feed continuously to get any results? Very simply, our cattle have to survive on grass. We don’t creep feed and our “gain on grass” test helps us to identify genetics that excel on what Mother Nature provides. We design cattle to work for you instead of the other way around!

Dependability and longevity –

Our bulls are developed with the cowman in mind and they are known to last in tough country. From Oregon to Florida, Bradley 3 Ranch bulls are known for their soundness, fleshing ability and longevity.

Bradley 3 Ranch, Ltd.

Ranch raised bulls for Ranchers since 1955.
